The following is an examiner's statement of reasons for allowance: the prior art of record does not teach a reflecting electrode on the light emitting layer as in the arrangement claimed. Jp '028, the closest prior art, would not have or suggest a reflecting layer on the light emitting layer surface as light is primarily emitted through this surface. The allowed claims basically describe the "flip chip" arrangement with a reflecting electrode on the top-side. Jp '028 does not teach or suggest this arrangement.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jerome Jackson Jr. whose telephone number is 571-272-1730. The examiner can normally be reached on M-Th.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Ken Parker can be reached on 571-272-2298. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
